

Questions before ordering pump control

Editorial checklist; not a manufacturer installation manual.

1. Confirm the option is included and identify the version.
2. Check approval for your Purezza pump.
3. Obtain indication and restart instructions.
4. Do not assume overflow, overheating or surge protection.
5. Do not bypass the sensor; seek service for abnormal operation.

Limits of the stated function

Condition	What can be stated
Minimum water level	Pump shutoff is stated in the option card
Up to 0.5 L residual water	Listed for version 2.0, not universal calibration
Recovery-tank overflow	Not confirmed by this option's description
Overheating and voltage surges	Protection is not claimed in this card
Restart	Confirm procedure for the installed version
