

Purezza Vehicle Interior Checklist

Seats, carpet, door cards and headliner.

Preparation

- Record damage and protect electronics.
- Remove sand and dry soil before chemistry.
- Identify every material zone.

Cleaning

- Clean seats in small sections.
- Work on carpet from remote areas towards the exit.
- Do not extract the headliner unless material and adhesive permit it.

Handover

- Check lower seat areas and carpet beneath mats.
- Do not hand over a vehicle with hidden moisture.

Area	Main control
Seats	Foam is not over-wet
Carpet	No sand or trapped water
Headliner	No delamination risk
Electronics	Controls and connectors are protected

Important: follow material-care, chemical and electrical-safety instructions. Confirm current equipment specifications before work.
